

ATTACHMENT B  
SECOND NOTICE CHANGES

Agency: Illinois Emergency Management Agency

Rulemaking: 32 Ill. Adm. Code 330

Changes:

1. In line 469, added "AGENCY NOTE: Reference to out-of-State disposal in Section 330.40(d)(4)(C)(ii) is intended to identify out-of-State disposal as an option that is not prohibited under this exemption. It is not intended to be a requirement. However, out-of-State disposal may be a requirement for material in concentrations greater than 200 pCi/g that are ultimately classified as low-level radioactive waste. In-State disposal options are available through the exemption provided in this rule at IEPA permitted RCRA Subtitle D solid waste landfills or Subtitle C hazardous waste landfills."
